In the last 26 years Judith has successfully developed her family law practice, concentrating on Clients in the £250,000 to £4 million value sector.

Judith has been accredited as a specialist in Financial Provision and Pensions Law by Resolution, a network of approximately 5,500 solicitors who are committed to adopting a non-confrontational approach to divorce and associated work.

### viewpoint

“ Family lawyer is an umbrella term that covers a wide area of legal practice. Divorces and separations impact upon a whole range of issues including capital, pensions, property, wills and trusts. In turn this means I regularly have to deal with various aspects of the law - divorce, property and employment to name but a few!

Unusually, for a lawyer, my work includes arithmetic. Spreadsheets help and are an invaluable tool in negotiating settlements. Psychology is important; you constantly need to have in mind the impact of your actions on your Client's spouse!
